Inverter Dual Evaporator 2 Door Freezer

Retail Price \$8,500

FEATURES

- Use as a freezer or fridge
- Precise temperature cooling, no more temperature fluctuation
- Dual evaporator system, no more temperature rise when in defrost mode
- Defrost on demand
- Premium controller
- 48-hour temperature record
- 12-hour real-time temperature curve on display
- High discharge/condenser temperature alarm
- Integrated door frame heating element with safety cut off function
- Auto eco-mode
- Condenser fan on demand
- Heavy duty castor wheels with integrated self-levelling feet
- Language options: English, Chinese, French, Spanish
- Sim card, external monitoring (optional)
- Voice command control (optional)

SPECIFICATION

Model: KLAFXA

Outside dimension(mm): 1480 wide x 830 deep x 2050 high

Internal dimension(mm): 1340 wide x 690 deep x 1480 high

Shelf size(mm): 580 wide x 600 deep

No. of shelves: 8

Capacity: 1362 litres

Max. Ambient temperature: 44 degrees Celsius

Power: 219w/566w, 110-240V, 50-60Hz

Temperature: -20/+2

Refrigerant: R290

Insulation foam: C5H10

Compressor: Embraco

Material: internal 304 Stainless steel, outside 201 stainless or custom

Door option: Glass or solid insulated with stainless finish

Warranty on compressor: 6 years

Warranty on system: 3 years parts and labour

BENEFITS OVER THE TRADITIONAL AC COMPRESSOR SYSTEM

- Power saving 30% or more
- Consistent Temperature stability, maintaining cabinet temperature
- Change from fridge to freezer with a push of a button
- Safer food storage and longer holding quality products
- Quieter operation
- Longer life span on compressor

Inverter Dual Temperature 3 Door Fridge/Freezer

Retail Price \$10,900

FEATURES

- Use as a fridge or freezer or split fridge + freezer
- Dual evaporator system
- Premium controller
- Precise temperature cooling, no more temperature fluctuation
- Defrost on demand
- 12-hour real-time temperature curve on display
- 48-hour temperature record
- Heated triple layered glass door
- Integrated door frame heating element with safety cut off function
- High discharge/condenser temperature alarm
- Condenser fan on demand
- Auto eco-mode
- LED lights, three colour mode: cool white, daylight and blue
- Heavy duty castor wheels with integrated self-levelling feet
- Language options: English, Chinese, French, Spanish
- Sim card, external monitoring via app (optional)
- Voice command control (optional)

SPECIFICATION

Model: KLAS1.5GS

Outside dimension(mm): 1800 wide x 760 deep x 1980 high

Internal dimension(mm): 1100 wide x 650 deep x 1440 high
+ 500 wide x 650 deep x 1440 high

Shelf size(mm): 480 wide x 520 deep

No. of shelves: 12

Capacity: 1428 litres

Max. Ambient temperature: 44 degrees Celsius

Power: 219w/566w, 110-240V, 50-60Hz

Temperature: -20/+2

Refrigerant: R290

Insulation foam: C5H10

Compressor: Embraco

Material: internal 304 polished stainless steel, outside 201 stainless or custom

Door option: Glass or solid insulated with stainless finish

Warranty on compressor: 6 years

Warranty on system: 3 years on parts and labour

BENEFITS OVER THE TRADITIONAL AC COMPRESSOR SYSTEM

- Power saving 30% or more
- Consistent Temperature stability, maintaining cabinet temperature
- Dual temperature with only one compressor system
- Change from fridge to freezer or split fridge + freezer with a push of a button
- Safer food storage and longer holding quality products
- Quieter operation
- Longer life span on compressor

Inverter Dual Temperature 6 Door Fridge/Freezer

Retail Price \$9,500

FEATURES

- Use as a fridge or freezer or split fridge + freezer
- Premium controller
- Precise temperature cooling, no more temperature fluctuation
- Defrost on demand
- 12-hour real-time temperature curve on display
- 48-hour temperature record
- Heated triple layered glass door
- Integrated door frame heating element with safety cut off function
- High discharge/condenser temperature alarm
- Condenser fan on demand
